Abdur Rahman

FOUNDER, VERSA | CREATIVE TECHNOLOGIST

Professional Profile

I am the creator of **Versa**, a multidisciplinary creative-tech studio. I specialize in merging creativity with technology, delivering high-quality video editing, cinematic music edits, immersive 3D designs, and premium web development. Driven by discipline and purpose derived from my Islamic scholarship studies, I help clients build powerful digital experiences from visuals to code.

Work Experience

Founder & Lead Creative
Versa / LuminaryFrame Studios
2020 - Present

Leading a creative tech studio focused on digital storytelling.
• Produced 100+ high-quality video projects with cinematic grading.
• Developed modern, responsive websites for various clients.
• Designed immersive 3D visuals and brand identities.
• Managed end-to-end creative strategy for digital brands.

Freelance Video Editor & Developer
Independent
2019 - 2020

Started professional journey by offering specialized editing and coding services to local and online clients, building a strong portfolio of creative work.
